Hill Road / Glen Aros	Torloisk to Aros Bridge	00:25 - 05:25	04:10

### Road Closures

At the time of closure the roads will be signposted and marshalled at both ends. Junctions along the road will be taped off and marshalled. Tracks and driveways will also be taped off. The stakes and tapes will be in position well before the closure time so that they can be tied across as close to closure time as possible. They will be removed after the passage of the Rally.

**Closed** roads means closed in the legal sense. The road, including passing places and verges, is out of bounds to non-Rally vehicles (including bicycles) and people for the duration of the closure period. Thus, intending spectators should be in their chosen places before the closure becomes effective and **MUST** remain there until the road is open again. Care is needed in selecting a viewpoint from which to watch the Rally. Standing on the outside of bends or directly in the line of oncoming cars is highly dangerous. Rally officials will direct spectators to safe areas and stages will not start until it is safe.

Immediately after the closure the first car through will be a marked Police car (03). The Safety Officer (02) will follow this. If the occupants of these two cars as well as the Chief Marshal (01), who will also pass through the Stage, are satisfied that the Stage is safe then the Rally will continue. The Course Car (00) will follow and, shortly afterwards, the first competing car.

There will be a Stage Commander responsible for each Stage and he will have at his disposal Doctors, ambulances, rescue vehicles and RAYNET radio operators covering both ends and, in some cases, intermediate points of the Stage. RAYNET will be providing radio coverage for the Rally, enabling any emergency to be swiftly dealt with. These emergency facilities are available for the Rally and for any other eventuality.

Once the Stage Commander is satisfied that all competing cars have cleared the Stage the road will be re-opened by the passage of the Opening Car

which will carry an illuminated "OPENING" sign on the roof. This may well be before the time specified on this sheet. Once the opening car has passed the road is legally open and normal traffic may be resumed.

We are always concerned with activities in the days leading up to the Rally. Competitors and visitors are encouraged to take in the delights of Mull, and are required to drive cautiously and courteously at all times. Competing cars will be banned from the road between 7.00 pm and 9.00 am on the days before the Rally. Practising at Rally speeds is strictly forbidden. Most competitors have been to Mull before and they will understand the point we are making, as will their service crew and supporters. Anyone falling foul of these rules will be excluded from the event. Rally patrols will operate to ensure compliance.

During the event Rally Control is situated at the Salen Hotel. **Any emergency, Rally or otherwise, should be reported on 999 as usual.**
